

# The Virtual High School

**Newtown Public School** is now able to offer online classes through Virtual High School (VHS) to supplement the existing curriculum.

These courses are not to replicate those already offered and must be approved by department Chairs and Administration.

VHS offers over 300 classes: middle and high school core, elective, Advanced Placement® and credit recovery courses. Students at any school may supplement their high school's offerings by enrolling in VHS courses through their school's participation in the program.

These courses are offered on a fee basis \$450 (there is an additional fee for Advanced Placement courses and Lab Classes). A course catalog can be found at: <https://my.vhslearning.org/PublicStudentCourseList.aspx>

Registration will be through Newtown Continuing Education

Date	Day	Event
