

Confirmed COVID-19 Case in School

October 16, 2020

Dear Parents and Staff:

This afternoon, we were notified that a member of the Newtown High School community has tested positive for coronavirus (COVID-19). Since we are sharing building-level data with the State, we are now able to share this information with you. Through contact tracing in partnership with the Director of Health's Office, only those who had close contact will remain quarantined.

Anyone who is considered a "close contact" with this individual has been or is in the process of being notified by local health officials and provided with instructions on the appropriate steps to take. We have not received any other reports of students or staff members experiencing illnesses with symptoms resembling those of COVID-19.

As with controlling the spread of other viruses, we urge everyone to continue to discuss the following preventive measures with your children and family members:

- Wash your hands frequently, but especially after using the restroom and before preparing or consuming food. Using soap and hot water, wash for about 20 seconds. Be sure to also wash your fingertips. When soap and water are not available, use hand sanitizer.
- Avoid coughing or sneezing into your hands or in the air. Always try to cough or sneeze into a tissue, then throw the tissue away. If you don't have a tissue, cough/sneeze inside the elbow of your arm.
- As much as you can, avoid touching your eyes, mouth, and nose.
- Wear a face covering (mask) whenever there is a likelihood that you or your family members will be in the presence of others.
- Maintain social distancing (at least 6 feet) between yourself and others when outside of your home.

Below is the list of COVID-19 symptoms for which everyone should monitor in their family members:

- Fever (100.4° Fahrenheit or higher)
- Chills or shaking chills
- Uncontrolled new cough (not due to other known cause, such as chronic cough)
- Difficulty breathing or shortness of breath
- New loss of taste or smell

For additional information on COVID-19 symptoms, please see:

<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>

As always, staff and students exhibiting any of the above symptoms, or feeling ill, should call their medical provider to report their symptoms and ask about testing prior to seeking in-person care at a clinic, physician's office, or hospital.

For more information on what to do if you or a family member has possible symptoms, a diagnosis, or exposure to COVID-19, please see:

<https://portal.ct.gov/-/media/SDE/COVID-19/Addendum-5-Interim-Guidance-for-Responding-to-COVID-19-Scenarios-in-CT-School-Districts.pdf>

Please be assured that Newtown Public Schools continues to sanitize and disinfect all buildings and classrooms throughout the week, with a deep cleaning on Wednesdays to mitigate the spread of any infection.

We will continue to provide you with updates to keep you informed.

Sincerely,

Dr. Lorrie Rodrigue, Superintendent
